Partners are receiving remuneration on the basis of a percentage of the spread, a fixed fee and/or based on any other method agreed with them, which may affect the costs associated with your Account. More information on the fees and commissions JME Financial Services (Pty) Ltd pays to its Partners can be provided on request.

5.5 Rollovers, Interest

(a) A daily financing charge may apply to each CFD open position at the closing of JME Financial Services (Pty) Ltd’s trading day as regard to that CFD. If such financing charge is applicable, it will either be requested to be paid by Customer directly to the Company, or it will be paid by the Company to the Customer, depending on the type of CFD and the nature of the position Customer holds. The method of calculation of the financing charge varies according to the type of CFD to which it applies. Moreover, the amount of the financing charge will vary as it is linked to current interest rates (such as LIBOR). The financing charge will be credited or debited (as appropriate) to or from Customer’s account on the next trading day following the day to which it relates.

(b) The Company reserves the right to change the method of calculating the financing charge, the financing rates and/or the types of CFDs to which the financing charge applies. For certain types of CFDs, a commission might be payable by Customer to open and close CFD positions. Such commission payable will be debited from Customer’s account at the same time as the Company opens or closes the relevant CFD when occurs. Changes in our swap interest rates and calculations shall be at the Company’s sole and absolute discretion and without notice. Clients need to always check our website for the then-current rates charged. Rates may change quickly due to market conditions (changes in interest rates, volatility, liquidity etc.) and due to various risk related matters that are at the Company’s sole discretion.

(c) Any open CFD transaction held by Customer at the end of the trading day as determined by the Company or over the weekend, shall automatically be rolled over to the next Business Day so as to avoid an automatic close and physical settlement of the transaction. Customer acknowledges that when rolling over such transactions to the next Business Day, a premium may be either added or subtracted from Customer’s account with respect to such transaction. The platform(s) calculates overnight rollover at 21:00 GMT and the rollover charge/credit is debited or credited to and from the trading account.

5.6 CFD Expiration Rollover

(a) Unless otherwise specified, the underlying instrument of a CFD has an expiration date. However, you should be aware that CFDs are not traded up until the exact expiration date of the underlying

instrument. Instead, CFDs are rolled over to the next underlying future price on the last Friday before the official expiration day (except in cases of when it falls on a Friday when the markets are closed). This is known as the “Expiration Rollover”. If there would be any substantial price difference between the two futures, an adjustment will be credited or debited from the balance of your Account (subject to the open position amount of the expiring CFD) (“Adjustment”).

(b) This Adjustment will show up in your Account under “Rollover Charge”. You should be aware that the switch between the two future prices of the underlying CFD could involve a substantial price difference. Any existing pending order(s) (stop, limit, entry stop and entry limit) placed on these instruments will be adjusted to symmetrically (point-for-point) reflect the price differences between the expiring contract and the new contract CFD rollover date at 21:00 GMT. To calculate the rollover the Company takes the settlement prices of the two contracts from the relevant official exchange. To reflect the new Future contracts, the automatic rollover will include a charge equivalent to the spread of the CFD. This effectively aligns to the cost that you would have incurred if your CFD position would have been closed on the expiration date and you would open a new CFD position based on the new Futures contract. The spread charge will form part of the adjustment already being performed to reflect the price difference between the expiring Future contract and the new Future contract.

(c) JME Financial Services (Pty) Ltd will endeavor to inform customers about any projected expiration of instruments by Popup, email or through the Company’s website. However, JME Financial Services (Pty) Ltd cannot provide adjustment information about an Expiration Rollover before the adjustment occurs. Therefore, Customers with open positions who do not wish to have their positions rolled over into the new tradable contract should close their position(s) and/or cancel orders before the rollover date and open a new position afterwards.

(d) The formula used by JME Financial Services (Pty) Ltd for calculating the Adjustment:

(i) Platform:

$[(\text{Lots} \times \text{Contract Size}) \times (\text{New Contract} - \text{Old Contract Price})] + \text{Overnight Rollover CAPEX Web Trade} [\text{Quantity} \times \text{Swap percentage charge} \times \text{Last platform Mid price}]$

(ii) General rules:

New Price < Old Price = Credit for Long Positions/Debit for Short Positions

Example 1: contract price: 9,975.00EUR Old contract price: 9,982.00EUR Formula: $[(\text{Lots} \times \text{Contract Size}) \times (\text{New Contract} - \text{Old Contract Price})] + \text{Overnight Rollover}$ Long position will be charged positive rollover adjustment Customer X has a long open position on the underlying instrument of 1 lot. The adjustment will be: $[(1 \times 100) \times (9975 - 9982)] + \text{Overnight Rollover} = 700\text{EUR} + \text{Overnight Rollover}$ Short position will be charged negative rollover adjustment Customer X has a short position on the underlying instrument of 1 lot. The adjustment will be: $[(1 \times 100) \times (9975 - 9982)] + \text{Overnight Rollover} = -700\text{EUR} + \text{Overnight Rollover}$ CAPEX Web Trader New contract price: 480.30USD Old contract price: 484.20USD Formula: $[\text{Quantity} \times \text{Swap percentage charge} \times \text{Last Platform Mid Price}] \text{ Swap percentage charge} = (\text{old contract price} - \text{new contract price}) / \text{old contract}$

price Last platform Mid price = (Last Bid Price + Last Ask Price)/2 Long position will be charged positive rollover adjustment Customer X has a long open position on the underlying instrument of 100 units. The adjustment will be: [Quantity x Swap percentage charge x Last platform Mid price] Swap percentage charge = $(484.20 - 480.30) / 484.20 = 0.80545\%$, rounded to the second decimal 0.81% Last platform Mid price = $(475.13 + 477.63) / 2 = 476.38$ [100 x 0.81% x 476.38] = 385.87USD Short position will be charged negative rollover adjustment Customer X has a short position on the underlying instrument of 100 units. The adjustment will be: [Quantity x Swap percentage charge x Last platform Mid price] Swap percentage charge = $(484.20 - 480.30) / 484.20 = 0.80545\%$, rounded to the second decimal 0.81% Last platform Mid price = $(475.13 + 477.63) / 2 = 476.38$

[100 x 0.81% x 476.38] = -385.87USD

New Price > Old Price = Debit for Long Positions/Credit for Short Positions

Example 2: contract price: 9,982.00EUR Old contract price: 9,975.00EUR Formula: [(Lots x Contract Size) x (New Contract – Old Contract Price)] + Overnight Rollover Long position will be charged negative rollover adjustment Customer X has a long position on the underlying instrument of one (1) lot. The adjustment will be: [(1 x 100) x (9982 – 9973)] + Overnight Rollover = -900EUR + Overnight Rollover Short position will be charged positive rollover adjustment Customer X has a short position on the underlying instrument of one (1) lot. The adjustment will be: [(1 x 100) x (9982-9973)] + Overnight Rollover = 900EUR + Overnight Rollover CAPEX Web Trader New contract price: 480.30USD Old contract price: 478.20USD Formula: [Quantity x Swap percentage charge x Last Platform Mid Price] Swap percentage charge = (old contract price – new contract price)/ old contract price Last platform Mid price = (Last Bid Price + Last Ask Price)/2 Long position will be charged negative rollover adjustment Customer X has a long position on the underlying instrument of 100 units. The adjustment will be: [Quantity x Swap percentage charge x Last platform Mid price] Swap percentage charge = $(478.20 - 480.30) / 478.20 = 0.43714\%$, rounded to the second decimal 0.44% Last platform Mid price = $(475.13 + 477.63) / 2 = 476.38$ [100 x 0.44% x 476.38] = -209.61USD Short position will be charged positive rollover adjustment Customer X has a short position on the underlying instrument of 100 units. The adjustment will be: Swap percentage charge = $(478.20 - 480.30) / 478.20 = 0.43714\%$, rounded to the second decimal 0.44% Last platform Mid price = $(475.13 + 477.63) / 2 = 476.38$

[100 x 0.44% x 476.38] = 209.61USD

(e) For Islamic accounts, due to the account being swap-free, the aforementioned actions shall be effected through manual adjustments, credit or debit, to reflect the difference in the price between the old expiring contract and the new contract. The calculation formula and prices used are the same as prescribed for the normal procedure. As with normal procedure, any manual adjustments will not affect the Customer's equity.

(f) Exceptions to the normal procedure:

(i) When the difference in the price of the expiring contract and the new contract is abnormally big, and In JME Financial Services (Pty) Ltd sole and absolute discretion, JME Financial Services (Pty) Ltd

(ii) In the case of the liquidity of the CFD old contract being too small, and in JME Financial Services (Pty) Ltd sole and absolute discretion, JME Financial Services (Pty) Ltd has the right to effect the rollover on an earlier date than the prescribed one.

(iii) All Adjustments are calculated in the currency the underlying instrument is denominated in, and in case the Account is in a different currency, the system will automatically convert this to the currency of the Account using the market rate at that time.

5.7 Overnight Rollover

On Wednesday at 21:00 GMT, overnight rollover fees for FX pairs are multiplied by three (x3) in order to compensate for the upcoming weekend, for all other instruments, the overnight rollover fees are multiplied by three (x3) on Friday. 9.4 Islamic Accounts

(a) In the event of a customer who due to its observance of Islamic religious beliefs cannot receive or pay interest, such customer may elect to designate, in the manner provided by the Company as this may be altered from time to time, their trading account to be a swap-free account not charged with or entitled to, premiums and/or rollovers and/or interest ("Islamic Account"). The Customer hereby confirms and/or accepts and/or declares that a request to render their account as an Islamic Account shall only be made due to the said Islamic religious beliefs and for no other reason whatsoever. The Company reserves the right to refuse to accept the request of a customer to

designate their account as an Islamic Account, at its sole and absolute discretion which shall be conclusive and undisputable by the Customer.

(b) In the event that the Company suspects that a Customer is abusing the rights conferred to them by the classification of the account as Islamic Account, the Company has the right, without prior notice, to proceed with one or more of the following:

(i) The Company may add commission upon each and every one of the transactions executed on the Islamic Account; and/or

10. TRADING POLICIES AND PROCEDURES

10.1 Placing of instructions

(a) You may give us instructions in electronic form through the JME Financial Services (Pty) Ltd Online Trading System or orally by telephone to the JME Financial Services (Pty) Ltd Trading Desk, unless we tell you that instructions can only be given in a particular way. If you give instructions by telephone, your conversation will be recorded.

(b) Telephone orders are accepted in the sole and absolute discretion of the Company. If any instructions are received by us by telephone, computer or other medium we may ask you to confirm such instructions in writing. We shall be authorised to follow telephone instructions notwithstanding your failure to confirm them in writing.

(c) In this Agreement, “instructions” and “orders” have the same meaning.

10.2 Types of Orders Accepted

(a) Some of the types of orders JME Financial Services (Pty) Ltd accepts include, but are not limited to:

(i) Good till Cancelled (“GTC”)- An order (other than a market order), that by its terms is effective until filled or cancelled by Customer. GTC Orders do not automatically cancel at the end of the business day on which they are placed.

(ii) Limit- An order (other than a market order) to buy or sell the identified market at a specified price. A limit order to buy generally will be executed when the asking price equals or falls below the

bid price that you specify in the limit order. A limit order to sell generally will be executed when the bid price equals or exceeds the asking price that you specify in the limit order.

(iii) Market- An order to buy or sell the identified market at the current market price that JME Financial Services (Pty) Ltd provides either via the JME Financial Services (Pty) Ltd Online Trading System or over the telephone through one of the dealers. An order to buy is executed at the current market ask price and an order to sell is executed at the current market bid price.

The Customer acknowledges and accepts that as the order is executed at market price, the execution price may be different from the price indicated when entering the order due to a change in market price at the time of execution.

(iv) Stop Loss- A stop loss order is an instruction to buy or sell a market at a price which is worse than the opening price of an open position (or worse than the prevailing price when applying the stop loss order to an already open position). It can be used to help protect against losses. The Customer acknowledges and accepts that because of market gapping, the best available price that may be achieved could be materially different to the price set on the stop loss order and as such, stop loss orders are not guaranteed to take effect at the price for which they are set.

(v) Trailing Stop- A trailing stop is the same as a stop loss order with the only difference being that, instead of setting a price at which the order is activated, the trailing stop order is activated at a fixed distance from the market price. For example, if Customer has purchased a long open position and the market asking price increases, the trailing stop price will also increase and will trail behind the market ask price at the fixed distance set by Customer. If the market asking price then decreases, the trailing stop price will remain fixed at its last position and if the market asking price reaches the trailing stop price, the order will be executed. The Customer acknowledges and accepts that because of market gapping, the best available price that may be achieved could be materially different to the price set on the trailing stop order and as such, trailing stop orders are not guaranteed to take effect at the fixed distance for which they are set.

(b) Following submission of an order, it is your sole responsibility to remain available for order and fill confirmations, and other communications regarding your Account until all open orders are completed. Thereafter, you must monitor your Account frequently when you have open positions in the Account.

(c) Your order shall be valid in accordance with the type and time of the given order, as specified. If the time of validity or expiration date/time of the order is not specified, it shall be valid for an indefinite period.

10.3 Terms of Acceptance for Orders

It is your sole responsibility to clearly indicate the terms of an order when entered, whether it is a market order, limit order, stop loss order or any other type of order, including the relevant price and lot size. You acknowledge and agree that, despite our best efforts, the price at which execution occurs may be materially different from the price specified in your order. This may result from sudden price movements in the underlying assets that are beyond our control. JME Financial

Services (Pty) Ltd shall have no liability whatsoever for any losses arising in this manner. JME Financial Services (Pty) Ltd shall have the right, but not the obligation, to reject any order in whole or in part prior to execution, or to cancel any order, where your Account contains margin that is insufficient to support the entire order or where such order is illegal or otherwise improper.

10.4 Execution Policy

(a) We are required to have an execution policy and to provide our clients with appropriate information in relation to our execution policy. Where you place orders with us, the execution factors that we consider and their relative importance is as set out below:

(i) Price. The relative importance we attach is “high.”

(ii) Speed. The relative importance we attach is “high.”

(iii) Likelihood of execution and settlement. The relative importance we attach is “high.”

(iv) Size The relative importance we attach is “high.”

10.5 Authority

We shall be entitled to act for you upon instructions given or purporting to be given by you or any person authorised on your behalf without further enquiry as to the genuineness, authority or identity of the person giving or purporting to give such instructions provided such instruction is accompanied by your correct Account number and password. If your Account is a joint account, you agree that we are authorized to act on the instructions of any one person in whose name the Account is held, without further inquiry. We shall have no responsibility for further inquiry into such apparent authority and no liability whatsoever for the consequences of any actions taken or failed to be taken by us in reliance on any such instructions or on the apparent authority of any such persons.

10.6 Cancellation/withdrawal of instructions

Non-market orders may be cancelled via the JME Financial Services (Pty) Ltd Online Trading System but we can only cancel your instructions if you explicitly request so, provided that we have not acted up to the time of your request upon those instructions. Executed instructions may only be withdrawn or amended by you with our consent. JME Financial Services (Pty) Ltd shall have no liability whatsoever for any claims, losses, damages, costs or expenses, including legal fees, arising directly or indirectly out of the failure of such order to be cancelled.

10.7 Right not to accept orders

We may, but shall not be obliged to, accept instructions to enter into a Transaction. If we decline to enter into a proposed Transaction, we shall not be obliged to give a reason but we shall promptly notify you accordingly.

10.8 Control of orders prior to execution

(a) We have the right (but not the obligation) to set limits and/or parameters to control your ability to place orders at our absolute discretion. Such limits and/or parameters may be amended, increased, decreased, removed or added to by us at our sole and absolute discretion and may include (without limitation):

(i) controls over maximum order amounts and maximum order sizes;

(ii) controls over our total exposure to you;

(iii) controls over prices at which orders may be submitted (to include (without limitation) controls over orders which are at a price which differs greatly from the market price at the time the order is submitted to the order book);

(iv) controls over the Electronic Services (including (without limitation) any verification procedures to ensure that any particular order or orders has come from you); and/or

(v) any other limits, parameters or controls which we may be required to implement in accordance with Applicable Regulations.

10.9 Trade Adjustments

(a) Customers must be aware that CFDs carry a high degree of risk. The amount of initial margin may be small relative to the value of the CFD so that transactions are 'leveraged' or 'geared.' A relatively small market movement may have a proportionately larger impact on the funds that the Customer has deposited or will have to deposit. This may work against as well as for the customer.

(b) The Customer agrees that JME Financial Services (Pty) Ltd may in its sole and absolute discretion widen its variable spreads, adjust leverage, change its rollover rates and/or increase the margin requirements without notice under certain market conditions including, but not limited to, when the JME Financial Services (Pty) Ltd Trading Desk is closed, around fundamental announcements, as a result of changes in credit markets, at times of extreme market volatility and/or when JME Financial Services (Pty) Ltd deems that such exposure is risky and that it is not possible for JME Financial Services (Pty) Ltd to mitigate its risks. The Customer agrees that JME Financial Services (Pty) Ltd shall have no liability whatsoever for any claims, losses, damages, costs or expenses, including legal fees, arising directly or indirectly out of any such action on the part of JME Financial Services (Pty) Ltd.

10.10 Execution of orders

(a) We shall make all reasonable endeavors to execute any order you place, taking into consideration the relevant market conditions and our internal risk management policies. By accepting your orders, we do not warrant that it will be possible to execute them, or that execution will be possible according to your instructions. Execution of an order may take up to 8 seconds. Please note that execution price may be different than the price indicating when entering the order should a change in the market price occur during the execution of the order.

(b) JME Financial Services (Pty) Ltd uses two types of execution, namely instant and market, depending on the platform chosen by the client. For more information please contact Customer Support.

10.11 Negative Balance Protection

CFDs, which are leveraged products, incur a high level of risk and can result in the loss of all of the client's invested capital. However, it should be noted that JME Financial Services (Pty) Ltd operates on a 'negative balance protection' basis which means that the client cannot lose more than his/ her overall invested capital (deposit).

10.12 Confirmations

(a) At the end of each trading day, confirmations for all Transactions that we have executed on your behalf on that trading day will be available via your online Account on our website in the Open Positions window. in the dealing console, which is updated online as each Transaction is executed. Confirmation of execution and statements of your Account(s), in the absence of manifest error, shall be deemed correct, conclusive and binding upon you if not objected to immediately by email if orders were placed through JME Financial Services (Pty) Ltd Online Trading System or within five Business Days of making such confirmations available to you via our website if the orders were placed by telephone through the JME Financial Services (Pty) Ltd Trading Desk, provided that we may notify you of an error in confirmation whenever such errors occur.

(b) In cases where the prevailing market represents prices different from the prices posted by JME Financial Services (Pty) Ltd, the Company will endeavor in good faith to execute market orders on or close to the prevailing market prices. This may or may not adversely affect customer's realised and unrealised gains and losses. JME Financial Services (Pty) Ltd shall have no liability whatsoever for any claims, losses, damages, costs or expenses, including legal fees, arising directly or indirectly as a result of prices posted by JME Financial Services (Pty) Ltd differing from the prices represented by the prevailing market.

(a) JME Financial Services (Pty) Ltd objective is to provide the most efficient trading liquidity available in the form of streaming, tradable prices for most of the financial instruments we offer on the JME Financial Services (Pty) Ltd Online Trading Platform. As a result of the highly automated nature of the delivery of these streaming, tradable prices, you acknowledge and accept that price misquotations are likely to occur from time to time.

(b) Should you execute trading strategies with the objective of exploiting such misquotation(s) or act in bad faith (commonly known as 'sniping'), JME Financial Services (Pty) Ltd shall consider this as unacceptable behavior. Should JME Financial Services (Pty) Ltd determine, in its sole and absolute discretion and in good faith, that you or any representative of yours trading on your behalf is taking advantage, benefitting, attempting to take advantage of or benefit from such misquotation(s) or that you are committing any other improper or abusive trading act such as:

- (i) fraud/illegal actions that led to the Transaction;
- (ii) orders placed based on manipulated prices as a result of system errors or system malfunctions;

- (c) adjust the price spreads available to you; and/or
- (d) restrict your access to streaming, instantly tradable quotes, including providing manual quotation only; and/or

10.18 Trailing Stop functionality in case that the Company's terminals are closed

The Customer acknowledges and agrees that in the event that the Company's client terminal(s) is/are closed, trailing stop will not work. (a) Without prejudice and subject to the terms of this Agreement, all Applicable Regulations and all conditions attaching to any relevant payments made to you under a bonus or rebate scheme operated by us, funds may be withdrawn by you from your Account provided that such funds are not being utilised for margin purposes or have otherwise become owing to us. (e) Please see Clause 11 (Bonus and Award Policy) for more information.

10.20 Corporate Action's Account Adjustment Policy

(a) Stock splits, reverse stock splits, stock dividends and other stock related events ("Corporate Action") can have an impact on the share price and thus on the price of their CFDs. A Client who performs a CFD Transaction has no ownership of the underlying instrument. However, in the event of a Corporate Action which has an effect on the underlying asset of a CFD, the Company shall make the relevant adjustments in the Account to reflect the economic effect of the Corporate Action on

the price of the CFD. This can be done through a cash adjustment and/or a position adjustment in the Account before or after the ex-date (“Effective Date”).

(b) In the case of a Corporate Action, and in an effort to maintain the same economic value of the relevant Transaction, the Company shall proceed with, among others, one or more of the following:

(i) freeze the financial instrument the underlying asset of which is subjected to the split or reverse split, so as not be subjected to any trading until the relevant adjustments are made in the Account; and/or

(ii) freeze the Account until the relevant adjustments are performed; and/or

(iii) set the financial instrument the underlying asset of which is subjected to the split or reverse split on a close-only mode, in which case no new positions shall be opened; and/or

(iv) make the relevant adjustments in the Account to restore the Account’s Transactions in other financial instruments which were (post the Effective Date) or will be (prior to the Effective Date) affected by the Split. Such adjustments can be executed at the then-current market prices which may be different than the prices at which the original Transaction was executed.

(c) The abovementioned measurements shall get executed selectively or on several Accounts, pre or post the Effective Date, in a timely fashion in an effort to disturb the activity in the Accounts to the minimum. The following are non-binding and non-exhaustive scenarios and examples made to illustrate the above-mentioned:

(i) In the case of a client holding a long position of a financial instrument the underlying asset of which encountered a split, the Company may proceed with a positive adjustment to the Account. In case of a reverse split, a client holding a long position shall face a negative adjustment to the Account.

(ii) In case of a client holding a short position and the financial instrument the underlying asset of which encountered a split, the Company may proceed with a negative adjustment to the Account. In case of a reverse split, a client holding a short position shall face a positive adjustment to his account.

(iii) When the client holds either a long or short position and the financial instrument the underlying asset of which encountered a split or reverse split, the Company may proceed with a position adjustment in order to make the necessary adjustment to the price of the financial instrument to reflect the split or reverse split economic effect on the Account. In this case, the Company may close-out the position in the Account and reinstate the position under a new instrument with the adjusted price to reflect the effect of the split or reverse split.

(d) For example (Exhibit 1):

Exhibit 1 APPLE 1:7 Stock Split date on the 6th June Ex-date: 9th June Cash adjustments (positive or negative) for clients holding position until the closing of trading on the 6th of June 2014: The adjustment will be calculated as follows: closing price on 06th June - (closing price on 06th June *

adjustment factor) e.g. : closing price on 6th June = 606.97 adjustment factor = 0.1428571 (1/7)
 $606.97 - (606.97 * 0.1428571) = 606.97 - 86.7099 = 520.26$ USD Then multiplied by lots and contract size: $520.26 * \text{contract size} * \text{lots}$. Client X holds a LONG position of 0.1 lots of APPLE CFD. He will receive a positive adjustment of $520.26 * 100 * 0.1 = 5202.60$ USD. Client Y holds a SHORT position of 0.2 lots of APPLE CFD. He will receive a negative adjustment of $520.26 * 100 * 0.2 = 10405.20$ USD

Position adjustments: All open positions held at the close of business on June 6, 2014, will be closed and new positions will be reopened under a new instrument APPLEINC at the split-adjusted price.

Client X holds a LONG or SHORT position of 0.01 lots of APPLE CFD at 603.59. The position will be closed at the opening price 603.59. A new position will be opened as follows: $0.01 * 7$ at 603.59/7. So the equity of the client will not be affected and the P&L will remain as it was before. The new position will be 0.07 lots of APPLEINC at 86.2271.

(e) In the case of the distribution of a dividend, the Company also has the right to proceed with a positive or negative adjustment done pre or post the ex-dividend date either before or after the opening of trade.

10.21 The following are non-binding and non-exhaustive scenarios and examples made to illustrate the above-mentioned:

(a) In the case of a client holding a long position, the Company shall make a positive adjustment to reflect the economic effect the dividend shall have on the Account whereas in case of a client holding a short position the Company shall make a negative adjustment to reflect the economic effect the dividend shall have on the Account (Exhibit 2):

Exhibit 2 APPLE dividend: 3.29USD per share Ex-date: 8th May Clients holding a long CFD position will receive a positive adjustment, and clients holding a short CFD position will receive a negative adjustment. Adjustments will be calculated as follows:

Lots x contract size x dividend Contract size = 100.

Client X holds a LONG position of 0.3 lots of APPLE CFD. The client will receive a positive adjustment of $0.3 * 100 * 3.29 = 98.7$ USD. Client Y holds a SHORT position of 0.2 lots of APPLE CFD. The client will receive a negative adjustment of $0.2 * 100 * 3.29 = 65.8$ USD.

(b) The Client hereby acknowledges and confirms that they shall keep themselves informed and up-to-date with announcements on stock dividends distribution. The Company shall have no liability whatsoever for any claims, losses, damages, costs or expenses, including legal fees, arising directly or indirectly from any Corporate Action that may affect a Client's account and/or position.

(c) Any activity in the Account is void until the relevant adjustment contemplated in this clause has been made by the Company. Therefore, Transactions and withdrawals shall be executed from an adjusted Account only, which reflect the correct balance of the economic effect the Corporate Action had on the price of the CFD.

10.22 Trading Accounts Archiving

(a) If we do not record any activity in your Trading Account(s) during a continuous period of three (3) months and you have a zero account balance, your Trading Account(s) and all its history will be archived on our trade server.

(b) If you wish to keep using your Trading Accounts or restore it in the future, please contact us at support@za.capex.com

10.23 Inactive and Dormant Account

If the Client Account is inactive for three months or more in that the Client fails to provide an Order, the Company reserves the right (after calling or emailing the Client using the last known contact details) to render the Client Account dormant and shall have the right to charge the Client Account a fee.

Inactive Accounts will be subject to a monthly charge of Thirty (30) USD or its equivalent in the currency of the trading account ("Inactivity Fee") for every Inactive Account relating to the maintenance, administration and compliance management of such Inactive Accounts, which charge shall apply in accordance with the following formula:

a. Where you have more than one (1) Trading Account, and all of such Trading Accounts are Inactive Accounts, Inactivity Fee shall be charged separately for each Inactive Account;

b. Where you have more than one (1) Trading Account, and at least one (1) of your Trading Accounts is inactive, Inactivity Fee shall apply for each Inactive Accounts;

c. Where the balance of any Inactive Account to which Inactivity Fee is applicable under this Clause is less than Thirty (30) USD, then the Inactivity Fee for such Inactive Account shall be equal to the amount of the remaining balance on such Inactive Account. We reserve the right to charge the Inactivity Fee retroactively for any month in which we had the right to charge it but did not do so for technical reasons.

Money left after deducting inactivity fees in the dormant account shall remain owing to the Client and the Company shall make and retain records and return such funds upon request by the Client at any time thereafter.

12.3 Restrictions on services provided

There may be restrictions on the number of Transactions that you can enter into on any one day and also in terms of the total value of those Transactions.

12.4 Risk classification

The Customer acknowledges and accepts that the Company applies a risk mitigation and management approach according to which certain settings may apply and certain features may not be available on the Customer's Account depending on several factors, including but not limited to, the platform used, the trading profile of the Customer and market conditions.

13. CLIENT MONEY

We treat money received in trust from you or held by us on your behalf in accordance with the requirements set out in the FAIS Act and the Code.

13.1 Interest

You, the Client, acknowledge and confirm that no interest will be received on the balance of your Account.

13.2 Overseas banks, intermediate broker, settlement agent or OTC counterparty

We will endeavor to hold client money on your behalf within authorized credit institutions in the Republic of South Africa, however we may also hold your money outside of South Africa. The funds will be kept in bank accounts denominated as clients' funds and clearly segregated from the Company's own funds. Funds deposited may be kept in one or more omnibus accounts with any authorized credit institution used to accept funds which the Company will specify from time to time and will be held in the Company's name. The legal and regulatory regime applying to any such bank or person will be different from the legal and regulatory regime in South Africa and in the event of the insolvency or any other analogous proceedings in relation to that bank or person, your money may be treated differently from the treatment which would apply if the money was held with a bank

in an account in South Africa. We will not be liable for any claims, losses, damages, costs or expenses, including legal fees, arising from the insolvency, acts or omissions of any third party referred to in this clause.

13.3 Due care, skill and diligence

We deposit financial instruments held on behalf of our clients in an account and/or accounts opened with a third party, provided that we have exercised reasonable care, skill and diligence in the selection, appointment and periodic review of the third party and the arrangements for the holding and safekeeping of financial instruments. With regards to the deposit of clients' funds, in the event we do not deposit clients' funds with a central bank, we exercise reasonable care, skill, and diligence in the selection, appointment and periodic review of the credit institution, bank or money market fund where the funds are placed and the arrangement for the holding of those funds. It is noted that we take into account the expertise and reputation of the third party as well as the legal requirements or market practices related to the holding of those financial instruments that could adversely affect clients' rights.

13.4 Denomination of Clients' Funds Accounts and Segregation from Strongbow's own funds

We shall take all necessary measures in order to ensure that any clients' financial instruments deposited with a third party are identifiable separately from the financial instruments belonging to the Company and from financial instruments belonging to that third party, by means of differently titled accounts in the books of the third party or other equivalent measures that achieve the same level of protection.

13.5 Diversification of risks

We shall ensure, where deemed necessary, the diversification of the clients' financial instruments and funds, for example, the maintenance of accounts with several third parties.

13.6 Omnibus Account Risk

(a) The Company may hold clients funds in omnibus accounts within third party financial and credit institutions. In this respect, the client is warned that there is a risk of loss emanating from the use of omnibus accounts in financial or credit institutions. In such case it may not be possible to distinguish if the particular Client funds are held by a certain financial or credit institution. Omnibus accounts may also hold other types of risks including legal, liquidation risk, haircut risk, third party risk, etc.

(b) In the event of insolvency or any other analogous proceedings in relation to a financial or credit institution where clients funds are held, the Company (on behalf of the client) and/or the Client may only have an unsecured claim against the financial or credit institution, and the Client will be exposed to the risk that the money received by the Company from the financial or credit institution, is insufficient to satisfy the claims of the Client with claims in respect of the Account. The Company will not be liable for any claims, losses, damages, costs or expenses whatsoever, including legal fees, arising in these circumstances, so in the unlikely event of default the proportionate loss shall affect

all of the Company's clients' monies held in omnibus accounts with the financial or credit institution. To mitigate this risk the Clients funds are being held by a few reputable financial or credit institutions and constant exposure monitoring is taking place.

13.7 Liability and Indemnity

(a) You agree that we shall not be liable for any default of any counterparty, bank, custodian or other entity which holds money on your behalf or with or through whom transactions are conducted.

(b) JME Financial Services (Pty) Ltd will not be liable for any claims, losses, damages, costs or expenses whatsoever, including legal fees, suffered by you in connection to your funds held by us, unless such loss directly arises from our gross negligence, willful default or fraud.

It is noted that the trust account must be audited and confirmation submitted to the FSCA yearly.

JME Financial Services (Pty)Ltd hold professional indemnity and fidelity insurance.

14. MARGINING ARRANGEMENTS

14.1 Contingent liability

Where we effect or arrange a Transaction, you should note that, depending upon the nature of the Transaction, you may be liable to make further payments when the Transaction fails to be completed or upon the earlier settlement or closing out of your position. You may be required to make further variable payments by way of margin against the purchase price of the investment, instead of paying (or receiving) the whole purchase (or sale) price immediately. The movement in the market price of your investment will affect the amount of margin payment you will be required to make. We will monitor your margin requirements on a daily basis and we will inform you as soon as it is reasonably practicable of the amount of any margin payment required under this clause.

14.2 Margin call

You agree to pay us on demand such sums by way of margin as are required from time to time as we may in our discretion reasonably require for the purpose of protecting ourselves against loss or risk of loss on present, future or contemplated Transactions under this Agreement.

If there is an Event of Default or this Agreement terminates, we shall set-off the balance of margin owed by us to you against your obligations (as reasonably valued by us). 14.6 Obligation to provide security

17. NETTING

17.1 Rights on Default

On the occurrence of an Event of Default, we may exercise our rights under this clause, except that in the case of the occurrence of any Event of Default specified in Clause 16.1(b) or Clause 16.1(c) of the definition of Events of Default (each a “Bankruptcy Default”), the automatic termination provision of this clause shall apply.

17.2 Liquidation Date

Subject to the following sub-clause, at any time following the occurrence of an Event of Default, we may, by notice to you, specify a date (the “Liquidation Date”) for the termination and liquidation of Transactions in accordance with this clause.

17.3 Automatic termination

The date of the occurrence of any Bankruptcy Default shall automatically constitute a Liquidation Date, without the need for any notice by us and the provisions of the following sub-clause shall then apply.

17.4 Calculation of Liquidation Amount

Upon the occurrence of a Liquidation Date:

(a) neither of us shall be obliged to make any further payments or deliveries under any Transactions which would, but for this clause, have fallen due for performance on or after the Liquidation Date and such obligations shall be satisfied by settlement (whether by payment, set-off or otherwise) of the Liquidation Amount (as defined below);

(b) we shall (on, or as soon as reasonably practicable after, the Liquidation Date) determine (discounting if appropriate), in respect of each Transaction the total cost, loss or, as the case may be, gain, in each case expressed in the Base Currency ZAR or USD depending on client’s account (and, if appropriate, including any loss of bargain, cost of funding or, without duplication, cost, loss or, as the case may be, gain as a result of the termination, liquidation, obtaining, performing or re-establishing of any hedge or related trading position) as a result of the termination, pursuant to this Agreement, of each payment or delivery which would otherwise have been required to be made under such Transaction (assuming satisfaction of each applicable condition precedent and having due regard, if appropriate, to such market quotations published on, or official settlement prices set by the relevant exchange as may be available on, or immediately preceding, the date of calculation); and

(c) we shall treat each cost or loss to us, determined as above, as a positive amount and each gain by us, so determined, as a negative amount and aggregate all of such amounts to produce a single, net positive or negative amount, denominated in the Base Currency (the “Liquidation Amount”).

17.5 Payer

If the Liquidation Amount determined pursuant to this clause is a positive amount, you shall pay it to us and if it is a negative amount, we shall pay it to you. We shall notify you of the Liquidation Amount, and by whom it is payable, immediately after the calculation of such amount.

17.6 Other transactions

Where termination and liquidation occurs in accordance with this clause, we shall also be entitled, at our discretion, to terminate and liquidate, in accordance with the provisions of this clause, any other transactions entered into between us which are then outstanding.

17.7 Payment

The Liquidation Amount shall be paid in the Base Currency by the close of business on the Business Day following the completion of the termination and liquidation under this clause (converted as required by applicable law into any other currency, any costs of such conversion to be borne by you, and (if applicable) deducted from any payment to you). Any Liquidation Amount not paid on the due date shall be treated as an unpaid amount and bear interest, at the average rate at which overnight deposits in the currency of such payment are offered by major banks in the London interbank market as of 11.00 am (London time) (or, if no such rate is available, at such reasonable rate as we may select) plus one (1%) per annum, compounded monthly in arrears, for each day for which such amount remains unpaid.

17.8 Base Currency

17.9 Payments

Unless a Liquidation Date has occurred or has been effectively set, we shall not be obliged to make any payment or delivery scheduled to be made by us under a Transaction for as long as an Event of Default or any event which may become (with the passage of time, the giving of notice, the making of any determination hereunder, or any combination thereof) an Event of Default with respect to you has occurred and is continuing.
